ELECTION RESPONSE

Hon. Commissioner of Patents
Washington, D.C. 20231

Sir:

In response to the outstanding Office Action [Restriction Requirement] mailed on September 19, 2002, Applicants elect with traverse, Group I, claims 1-11, drawn to a method of screening compounds which modulate sweet taste signaling.

This traversal is on the basis that the search for Group I would necessarily overlap with the non-elected groups, especially the groups encompassing T1R DNA and amino acid sequences. Therefore, it is respectfully submitted that, at the least, the claims directed to T1R DNAs and proteins should be rejoined with Group I. Also, the restriction is traversed on the basis that it would be unduly burdensome for Applicants to have file 21 other applications to cover what Applicants regard to be their invention.

If the examiner has any questions relating to this application, he is respectfully requested to contact the undersigned at the telephone number given below.

Respectfully submitted,

PILLSBURY WINTHROP LLP
